

1st shot is how the museum look as of today.

Replica Tashme shack and the original RCMP building to the right.

2nd shot is where I am planning on relocating the kindergarten schoolhouse.

It will be located behind the main museum building but connected through a corridor from main museum building.

3rd and 4th shot is how the Kindergarten schoolhouse house looks this morning.

We have already start prep work and some demolition that needed to be removed from the area.

5th shot is distance from the kindergarten schoolhouse to the museum property.  
Roughly 250 feet.
