Hi,

My wife and I attended this very well presented information session. Full marks to FVRD, Pacific Land Group and the owner for providing this public information meeting.

Here are my initial thoughts/comments which I shared with you all as FVRD reps, Pacific Development Group and owner were:

1. The proposal for RV storage lot under the BC Hydro Power lines generally would detract from the development of the area due to inevitable nature of such RV storage lots. Such RV storage lots tend to be eyesores with high security fences and bright lighting. The architect offered that lighting could be reduced as done now due to bylaws in metro Toronto area. This would be an improvement, but in the end it will still be a brightly lit RV storage lot at the very gateway to our community.
2. The proposed three, Phase 1 buildings along Hwy 9 all face inwards leaving "back of commercial building" presentation as you enter our community from Hwy 1 via Hwy 9. I suggested that 12-15 high rear walls of gas stations and fast food drive-thru restaurants are generally not a plus for sight lines from Hwy 9 and everything should be done to green up and softened this perspective as a "gateway" development into our neighbourhood. Perhaps landscaping using large, mature evergreens or the like would be helpful. However, I think this would require effort by FVRD and/or province to make such changes along Hwy 9.
3. With respect to the growing residential development in the area, the local benefits of this commercial gateway development come chiefly in Phase 2. Phase 1 is geared mainly to the traveling public with its gas station and the two fast food drive-thru restaurants. This being said, there are significant pedestrian/cycling access issues getting to this new commercial development by the local residents as pedestrians/cyclists. Suggestions I heard of tunnelling under Hwy 9 or building a pedestrian/cycling overpass over it are likely not the answer. It seems that we need controlled crossings at the near by traffic circle. The overly tight and busy traffic circle is not pedestrian/cycling friendly and in fact somewhat dangerous for all ages to attempt to navigate safely. The good news is that FVRD and provincial highways department have time to budget and execute such changes at the traffic circle.

I shared the above on the Popkum Ratepayers Facebook site and would appreciate if these thoughts/comments are captured as a local resident feedback.

Many thanks for hosting and providing this public forum for community feedback. Good luck with your development and I hope to continue to participate in the public process leading up to this development proposal.

Best Regards,
Fred Eves

Do you have any comments or questions on the application?

I personally like the development proposal in general and it will be a nice addition to bring this area further alive. Existing businesses will only profit from this plan.

However, I have a few items to suggest.

1. If thread around the centre building would be made of cobble stone or stamped concrete, it will give it more of a plaza feel, more inviting and aesthetically pleasing than regular pavement.

2. A sitting area with a water feature (fountain) in the north east corner would not only add a more relaxed feeling, it would also provide a place to meet for the community, a resting place for people driving through and an opportunity for local musicians to put on a bit of music during the summer. The sound of water would also divert a bit of the traffic noise.

3. While I am not in favour of drive through restaurants (most of them are linked to fast food chains which we find everywhere we go) and the creation of more garbage is enhanced, private venues (Mexican, Thai, Vegetarian, Steak house) would be more favourable and make this place more of a destination rather than a convenient 5 min pit stop, given the fact that many visitors drive out to see the wetlands and Bridal veil falls.

4. Creating maximum patio spaces facing the mountains would make any eating experience unique, creating a nice hang out for locals as well.

5. In terms of businesses, I would favour

- souvenir shop with native and local art
- Fruit and veggie market (mostly local) or deli
- Local brewery
- Bulk food /eco store (no packaging), as an environmental alternative
- Bank

(To be successful, you must be different, good luck)
