1- Statement as to eligibility to apply for Gant-In-Aid Funds

Spuzzum First Nation is in the middle of the Electoral Area B area squished in between Yale and Spuzzum Proper. Spuzzum First Nation works closely with the residents of both Yale and Spuzzum on many projects.

2- Project or purpose for which you require assistance

Spuzzum First Nation has recently experienced vandalism of our community LOGO and signage were cut down. Last year we installed beautiful signs that indicated that Spuzzum First Nation was ahead. Since we have such poor mapping for our community google maps just does not give much help getting to the community. These signs were extremely important for outside agencies to help arrive at our community without driving right past. We are looking to have new signage put up so we can continue to have ease of finding the community along the highway.

Our original signs were simple signs that fit into an extremely limited budget of our nation. We would like to install signs that are bigger and showcase the local talent we have in the community and using local forest products to showcase our beautiful surroundings.

3- Statement as to how these funds will benefit the community or aspect of the community

Having the signs up brings a sense of pride and respect to the community and the lands we are sharing with our neighbours. As in the past the funds from the FVRD helps bring our community together in ways we could never imagine! While signs may sound insignificant to some these signs will help bring the community together during the building process, and afterwards to proudly showcase the location of our community.

We appreciated the funds from past grants supporting our gardening project and additions to our elders shelter. With funds like this we can keep doing meaningful projects that support and include our entire community for generations to come!
