Good Morning Julie,

Paul told me to tell you that the 620 square feet is fine for the size of the variance; the 700 square feet was to be on the safe side so it's not too tight for set backs and such.

Could you please amend the size of the variance to the 620 square foot measurement.

Thanks so much, and if you need a separate email stating this - or if you have any other questions, please let me know.

Have a wonderful day!  
Gina
