Development Details

Property Size .5 acre Present Zoning SBR-2
 Existing Use Residential Single Family home
 Proposed Development Addition of living space: 3 stories to match existing house, on rear side of house, 22'x24' footprint
 Proposed Variation / Supplement Height variance - bylaw for average building height is 10m. requesting a variance to allow additional 1.28m for total average building height of 11.28m.

(use separate sheet if necessary)

Reasons in Support of Application Existing house is overheight, as are many in our neighborhood due to land slope. Addition will extend the existing roofline toward the rear of our property, and as a result will increase the average building height. Professional opinions of builder + drafts do not indicate a change in sight lines for our neighbors, and houses to the rear are up on a ridge so will also not be affected.
