Development Details

Property Size 21.51 ACRES Present Zoning _____

Existing Use Residential

Proposed Development Demolition of existing house and construction of a new dwelling unit and detached garage.

Proposed Variation / Supplement _____

To relax the allowable building height of 32' 9 5/8" to 43' 6 5/8" to accommodate an aesthetically pleasing roofline.

(use separate sheet if necessary)

Reasons in Support of Application _____

The design for the new dwelling resides in a geographic depression on the property, which accentuates the maximum height restriction in this circumstance. The ground height of the proposed dwelling sits approximately 3 metres below the grade of the road (which is the amount we are asking to relax), and we will be keeping the trees separating the road and the proposed dwelling. The new dwelling will not impede the view of the surrounding properties, nor will it be visible by the neighbours to the east and west. The surrounding houses are approximately 1000 metres or more away from the proposed dwelling, and the property is heavily wooded. The design of the dwelling cannot accommodate the current height restrictions with the topographical depression of the land.
