Teresa Pratt
Agent for Sasquatch Mountain Resort

Re: Letter of support for The Hemlock Valley Resort Association.

Dear Terry,

This letter is to confirm that Sts'ailes is in support of establishing a Hemlock Valley Resort Association. We have appreciated being involved throughout the application process, and can see the long-term value for the Association. We are also pleased to have the opportunity to continue guiding the Association as part of the governing Board governance.

We understand that the HVRA will be a not-for-profit society established under the [Societies Act](#), and the [Resort Associations Act](#), and members will include homeowners, commercial business owners, Sts'ailes (potentially), and the Sasquatch Mountain Resort Operator. We think that it is important that the Association will have the opportunity to be eligible for grants and can receive the provincial Hotel Tax (MRDT) within the Resort Promotion Area.

Our understanding is that fees collected from the Association members will be used for a range of community benefits like community trails and parks, community facilities such as swimming pools and visitor centres, and hosting events. Fees will also go towards marketing for the Resort Promotion Area. We look forward to continuing to work with Sasquatch Mountain Resort to improve recreational opportunities within Sts'ailes territory.

Sincerely,

Kelsey Charlie
