DISCUSSION

The owners of the property have made an application to construct an accessory structure (detached garage) at 35300 Riverside Road. The lot currently has a single family dwelling located on it. The property is constrained to the south by the Hatzic Slough (a Development Permit for RAR has been issued) and to the east by Farms Road. Locating the accessory structure (detached garage) with the 1.5 metre setback from the interior lot line would situate the detached garage less than 1.5 metres from the existing dwelling. The reduced interior setback will allow for a greater separation between the proposed detached garage and the existing dwelling.

The owner is aware that BC Building Code regulations will be required to be met for spatial separation – construction of exposed building face due to the proposed accessory structures (detached garage) proximity to the interior lot line.

Variance Requested – DVP 2018-31

Application Rationale

The applicant advises that the reasons in support of the variance are: 1. to maximize the distance between the house and the proposed accessory structure (detached garage); and, 2. to provide a clear entrance into the front of the accessory structure (detached garage).

Interior Side Setback Variance

The owners are seeking a 0.9 metre (3 foot) relaxation to the required interior side lot line setback, reducing the setback requirement from 1.5 metres (4.9 feet) to 0.6 metres (2 feet), clear to sky.

Neighbourhood Notification and Input

All property owners within 30 metres of the property will be notified by the FVRD of the development variance permit application and be given the opportunity to provide written comments or attend the Board meeting to state their comments. FVRD staff encourage the applicant to advise neighbouring property owners and residents of the requested variance in advance of the mail-out notification. To date not letters of support or objection have been received.

COST

The application fee of \$350.00 has been paid by the applicant.

CONCLUSION

The property owners have applied for a DVP to reduce the interior side setback for an accessory structure (detached garage). Staff recommend that the FVRD Board issue the permit. The variance is not anticipated to negatively affect any properties.

OPTIONS

Option 1 – Issue (Staff Recommendation)

Staff recommend that the FVRD Board issue Development Variance Permit 2018-29 for the property located at 35300 Riverside Drive, Electoral Area F to reduce the interior side lot line setback from 1.5 metres (4.92 feet) to 0.6 metres (2 feet), clear to sky, to facilitate the construction of an accessory structure (detached garage), subject to consideration of any comments or concerns raised by the public.

Option 2 – Refuse

If the Board wishes to refuse the application, the following motion would be appropriate:

MOTION: THAT the Fraser Valley Regional District Board refuse Development Variance Permit 2018-29 for the property located at 35300 Riverside Drive, Electoral Area F.

Option 3 – Refer to Staff

If the Board wishes to refer the application back to staff to address outstanding issues, the following motion would be appropriate:

MOTION: THAT the Fraser Valley Regional District Board refer the application for Development Variance Permit 2018-29 for the property located at 35300 Riverside Drive, Electoral Area F to FVRD staff.
